

Health Promotion Center Health Check-up Programs (English)

 SAMSUNG MEDICAL CENTER

Program [Basic]

(required time: 2hrs)

Items	
Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Endoscopy (sedative)
Circulatory	: Electrocardiogram
Respiratory	: Chest X-ray (Front)

Program [Basic]

(required time: 2hrs)

The diagram features a vertical line on the left with two blue circular nodes. The top node is connected to a red rounded square containing male and female gender symbols and the word "Woman". The bottom node is connected to another red rounded square containing a Korean Won symbol (₩) and the price "1,240,000 (KRW)". A large grey rounded rectangle on the right contains the title "Items" and a list of medical services, each on a separate horizontal line.

Items	
Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Endoscopy (sedative)
Circulatory	: Electrocardiogram
Respiratory	: Chest X-ray (Front)
Woman Only	: Mammography(over35yrs), Gynecologic examination (PAP)

Program [Comprehensive]

(required time: 3hrs)

Man

1,554,000 (KRW)

Items

Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Endoscopy (sedative)
Circulatory	: Electrocardiogram, Carotid doppler ultrasound (Man only)
Respiratory	: Chest X-ray (Front)

Program [Comprehensive]

(required time: 3hrs)

Items	
Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Endoscopy (sedative)
Circulatory	: Electrocardiogram
Respiratory	: Chest X-ray (Front)
Woman Only	: Breast ultrasound, Mammography (over35yrs), Gynecologic examination (PAP, HPV, pelvis ultrasound)

Program [Executive]

(required time: 4hrs)

Items	
Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers, NT-pro BNP
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Endoscopy (sedative), Colonoscopy (sedative)
Circulatory	: Electrocardiogram, Echocardiography, Carotid doppler ultrasound(Man only)
Respiratory	: Chest X-ray (Front)
Endocrinology	: Thyroid ultrasound, Bone densitometry(over35yrs)

Program [Executive]

(required time: 4hrs)

Woman

2,803,000 (KRW)

Items

Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers, NT-pro BNP
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Endoscopy (sedative), Colonoscopy (sedative)
Circulatory	: Electrocardiogram, Echocardiography
Respiratory	: Chest X-ray (Front)
Endocrinology	: Thyroid ultrasound, Bone densitometry(over35yrs)
Woman Only	: Breast ultrasound, Mammography (over35yrs), Gynecologic examination (PAP, HPV, pelvis ultrasound)

Program [Executive on Cancer]

(required time: 5hrs)

Man

2,293,000 (KRW)

Items

Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Endoscopy (sedative), Colonoscopy (sedative), Abdominal pelvic CT
Circulatory	: Electrocardiogram
Respiratory	: Chest X-ray(front/lateral), Low dose Lung CT
Endocrinology	: Thyroid ultrasound

Program [Executive on Cancer]

(required time: 5hrs)

The infographic features a vertical line on the left with two blue circular markers. The top marker is connected to a red rounded square containing male and female symbols and the word 'Woman'. The bottom marker is connected to another red rounded square containing a Korean Won symbol and the price '2,950,000 (KRW)'. To the right, a large rounded rectangle titled 'Items' contains a list of medical services, each with a horizontal line below it.

Items	
Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function, Lipid profile, Diabetes, CRP, Anemia, Sex hormones, Vitamin D, Tumor markers
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Endoscopy (sedative), Colonoscopy (sedative), Abdominal pelvic CT
Circulatory	: Electrocardiogram
Respiratory	: Chest X-ray(front/lateral), Low dose lung CT
Endocrinology	: Thyroid ultrasound
Woman Only	: Breast ultrasound, Mammography (over35yrs), Gynecologic examination (PAP, HPV, pelvis ultrasound)

Program [Premium]

(required time: 8hrs)

Man

₩

7,209,000 (KRW)

Items

Anthropometry	: Height, Weight, Body composition analysis, Blood pressure
Eye exam	: Visual acuity, Fundus photography, Tonometry, Cataract (Man only)
Blood test	: Coagulation, Blood typing, Complete blood cell count, Syphilis, HIV, Hepatitis A/B/C, Liver function, Renal function, Gout, Thyroid function (Microsomal Ab included), Lipid profile (Apolipoprotein A/B, LDL subfraction included), Diabetes (insulin, C-peptide included), CRP, Anemia, Sex hormones, Tumor markers, Detailed blood test (Thyroid function, Electrolyte imbalance, Cardiovascular disease risk markers, Osteoclastin, CTx serum, Vitamin D, Vitamin B12, Folate)
Specimen	: Urine / Stool test
Gastroenterology	: Abdominal ultrasound, Endoscopy (sedative), Colonoscopy (sedative)
Circulatory	: Electrocardiogram, Echocardiography, Pulse Wave Velocity, Carotid doppler ultrasound, Coronary artery Ca CT (Man only)
Respiratory	: Chest X-ray (front/lateral), Low dose lung CT
Endocrinology	: Bone densitometry (over 35yrs), Thyroid ultrasound
Others	: Brain MRI/MRA, PET-CT (over 40yrs), Dental exam & Panorama X-ray, Audiometry

Program [Premium]

(required time: 8hrs)

Additional Items

Items	Cost[KRW]
Carotid Doppler Ultrasound	202,000
Echocardiography	255,000
Breast Ultrasound	225,000
Pelvic Ultrasound	127,000
Thyroid Ultrasound	153,000
Prostate Ultrasound	185,000
Graded Exercise Test	135,000
Pulse Wave Velocity	70,000
Colonoscopy	225,000

Items	Cost[KRW]
Brain MRI/MRA	1,500,000
Low-dose Lung CT	191,000
Coronary Ca CT	165,000
Abdominal Pelvic CT**	265,000
Cataract	110,000
Bone Densitometry*	51,000
Urea Breath Test	42,000
Cotinine	50,000

* This test is conducted for people over 35 years of age

**Abdominal Pelvic CT is conducted after consultation with a nurse

Thank You
